

**MOTUL DPF CLEANER**

**Diesel DPF cleaner**  
**Additive to add to Diesel fuel**  
**Bottle 1 Liter**

**TYPE OF USE**

MOTUL DPF CLEANER DIESEL is a cleaner additive designed to be used in all types of Diesel engines, with direct or indirect injection, naturally aspirated or turbocharged, with DPF (Diesel Particulate Filter) and/or with SCR (Selective Catalytic Reduction) systems, using all types of Diesel fuels and biodiesels.

MOTUL DPF CLEANER DIESEL effectively increases the performance of the DPF regeneration. Mixed with the Diesel fuel, it provides:

- Faster and more efficient cleaning of the DPF
- Restores original power and performance

**PERFORMANCES**

A clean DPF system is a necessary condition for an effective engine functioning. By increasing DPF regeneration performance, MOTUL DPF CLEANER thanks to its high performance additives allows to:

- Faster and more efficient cleaning of the DPF
- Maintenance of the cleanliness of the DPF
- Increased reliability

The use of MOTUL DPF CLEANER will ensure:

- Improved engine performance and driving pleasure
- Increased power: improved start-up, idling and acceleration
- Reduced fuel consumption and pollutant emissions at the exhaust

**RECOMMENDATIONS**

Pour one whole can of MOTUL DPF CLEANER in the Diesel tank before refueling.

A bottle is sufficient for Diesel fuel tanks from 50 up to 80 liters.

- In curative mode, pour the entire bottle for 50L of Diesel (on the dashboard: DPF warning light on).
- In preventive mode, pour the entire bottle for a full tank up to 80L of Diesel (every 5000 km).

To maintain the benefits of DPF cleaning, use MOTUL DPF CLEANER DIESEL regularly for optimal performance.

## MOTUL DPF CLEANER

**Diesel DPF cleaner**  
**Additive to add to Diesel fuel**  
**Bottle 1 Liter**

Dangerous. Observe the precautions for use.

### SECURITY

Refer to the MSDS sheet and the information mentioned on the product label.
