

# OIL STOP SMOKE

**Additive to add to engine oil after oil drain  
For Gasoline and Diesel car engine**

## **TYPE OF USE**

**MOTUL Engine Oil Stop Smoke** is a highly effective additive package for reducing soot and smoke exhaust of gasoline and diesel engines. Ideal for vehicles with high oil consumption. The product ensures optimum lubrication of all moving parts.

## **PERFORMANCE**

Counteracts oil thinning and thus reduces excessive oil combustion.  
Provide a clean and powerful combustion with minimal smoking and soot build-up.  
The product contributes to reduce fuel consumption by prevention of blow-by effects.  
Easy to use – no extra effort.

## **RECOMMENDATIONS**

Add to the oil system.  
Compatible with all commercially available mineral and synthetic engine oils.  
Cleaning of the oil system with Engine Cleaners before application is recommended.  
Sufficient for up to 5 L of engine oil. For larger volumes add 60 ml per liter engine oil.  
Works during operation.

**Attention: Check engine oil level before application!**

## **SECURITY**

Refer to the MSDS and the information mentioned on the product label bottle for further details.

We retain the right to modify the general characteristics of our products in order to offer to our customers the latest technical development.

Product specifications are not definitive from the order which is subject to our general conditions of sale and warranty. –
