

# POWER BOOSTER

Additive to add to gasoline

## TYPE OF USE

MOTUL Power Booster is suitable for all kinds of gasoline engines.

## PERFORMANCE

MOTUL Power Booster cleans injectors and inlet valves and keeps them clean.

Protects the system against corrosion, removes operational caused contaminations and optimizes therefore the atomization of the fuel and the combustion process, maintaining the engine performance.

Increased fuel lubricity reduces wear, optimizes fuel consumption as well as emission values and ensures operational reliability.

Clean and powerful combustion process and highly efficient engine running contributes to overall fuel economy.

## RECOMMENDATIONS

Add to the fuel tank before filling up. Recommended for both, PFI- and DI-gasoline engines.

Add one can for 60 L of gasoline. Product works during operation.

## SECURITY

Refer to the MSDS and the information mentioned on the product label bottle for further details.

We retain the right to modify the general characteristics of our products in order to offer to our customers the latest technical development.

Product specifications are not definitive from the order which is subject to our general conditions of sale and warranty.
