SAFCO KLEEN VF 200

Degreasing Agent

DESCRIPTION

SAFCO KLEEN VF 200 is a technical fluid specifically developed to replace petroleum and chlorinated solvents in their applications to cold or hot surface.

Useful product for cleaning applications:

– Surface does not need to be completely dry after cleaning
– Requires a stronger solvent power compared to hydrocarbon based solvents (elimination of resin deposit inks)
– Forms a temporary protective film on the treated parts.

APPLICATIONS

SAFCO KLEEN VF 200 is a technical fluid specifically developed to replace petroleum and chlorinated solvents in their application to cold or hot surfaces. It is used non diluted, cold or warm (80°C max).

Can be applied with cloth, in a cleaning fountain, can be sprayed or dipped.

SAFCO KLEEN VF 200 is a strong degreasing fluid suitable for sensitive materials and confined environments.

It is well-suited for the cleaning or degreasing of mechanical parts or machining fluid residues.

ADVANTAGES

- Strong degreasing power.
- Non-flammable, with a flash point over 170 °C, it avoids any ATEX risks.
- Compatible with the most materials, metals, plastics, elastomers, rubber, painted surfaces.
- Can be used in closed spaces.

The environmental, health and safety requirements are mentioned on the safety data sheet that is available at www.quickfds.fr

HEALTH & SAFETY

- VOC-free
- Non toxic
- Without solvent
- 100 % Biodegradable
- No odor
- No irritating

SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.
