

# SAFCO KLEEN V

Cleaner

## DESCRIPTION

**SAFCO KLEEN V** is a colorless cleaning solvent based on aliphatic hydrocarbons with a high flash point.

Its boiling temperature area is specially adapted for cleaning in vacuum machines in order to replace chlorinated solvents.

## APPLICATIONS

**SAFCO KLEEN V** can be used with a brush or in vacuum machines designed for A3 solvents with a flash point above 55 °C. Under vacuum distillation can be easily done in closed circuits allowing low solvent consumption.

**SAFCO KLEEN V** doesn't contain chlorine or halogenated solvents. All the appropriated safety measures about fire and explosion should be taken.

## ADVANTAGES

- Alternative to chlorinated solvents.
- Compatible with all metals, alloys, glass and ceramic.
- Efficient cleaning thanks to its formulation based on aliphatic hydrocarbons.
- A3 class solvent with a high flash point.
- Compatible with most plastics, elastomers and painted surfaces.

## TECHNICAL INFORMATION

TECHNICAL CHARACTERISTICS	UNITS	METHOD	SAFCO KLEEN V
Aspect	-		Clear
Density at 20°C (68°F)	-	ISO 12185	0.758
Viscosity at 40°C (104°F)	°C	ASTM D445	1.1
Flash point	°C	ASTM D93	> 55
Boiling point	°C	ASTM D86	171-191
Storage	-		Sealed package

These characteristics are given only for information and can be updated over time.

**SERVICES AND EQUIPMENT**

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.
