

MOTUL SCOOTER POWER 2T

Lubricant for High Performance 2 Stroke engine
Direct injection 2 Stroke engines
Synthese-Technologie - Ester

TYPE OF USE

All sports and high performance scooters, replica, sporty and urban, fitted with 2 Stroke engines, direct injection or conventional carburetor.

Can be used with oil injection systems or in premix.

Suitable for all type of Gasoline fuels, leaded or unleaded, with or without Ethanol biofuels.

Compatible with catalytic converters.

PERFORMANCES

STANDARDS API TC
ISO -L-EGD
JASO FD under N° 033MOT071

STANDARDS API TC
ISO-L-EGD

SPECIFICATIONS JASO FD under N° 033MOT072

Synthese-Technologie – Ester based lubricant especially developed for powerful scooter 2 Stroke engines running at high rpm and high load.

Very high oil film resistance for maximum anti-wear protection.

Reduces engine internal frictions and improves performance.

Avoid deposits and ensure engine cleanliness on all internal parts: combustion chamber, spark plug, piston top, ring grooves, exhaust port, exhaust pipe...etc.

Anti-smoke properties.

RECOMMENDATIONS

Oil injector systems: set to mini position.

Mixing ratio for premix lubrication: from 2% to 4% (from 50:1 to 25:1) according to manufacturers' requirements and to be adjusted according to your own use.
