Motul

MOTUL TUBELESS TIRE SEALANT

Prevents punctures on tubeless bicycle tires Bottle with nozzle – 500 ml

TYPE OF USE

MOTUL® Tubeless Tire Sealant prevents the small to medium punctures on all tubeless, i.e., without inner tubes, bicycle tires.

When filled inside tubeless tires, MOTUL® Tubeless Tire Sealant automatically plugs punctures as they happen.

PERFORMANCES

MOTUL® Tubeless Tire Sealant sticky formula clings to sidewalls and seals the porosity of the tire, and thus prevents the small to medium punctures on tubeless bicycle tires.

MOTUL® Tubeless Tire Sealant is a liquid that goes inside tubeless tires and automatically plugs punctures as they happen.

Most tire sealants would dry inside a puncture when exposed to air but MOTUL® Tubeless Tire Sealant exclusive long-lasting formula lasts up to 9 months in temperate climates and up to 5 months in arid and hot climates.

100% recycled and recyclable plastic bottle.

RECOMMENDATIONS

Quick application:

Undo the valve cap and remove the valve core.

Add MOTUL® Tubeless Tire Sealant quantity according to the chart.

Put the valve core back in.

Inflate the tire and spin the wheel to distribute correctly the tire sealant.

Remove old tire sealant residues in case of re-application.

Pro's tip:

Release the tire pressure.

Remove the tire from the wheel.

Add MOTUL® Tubeless Tire Sealant quantity according to the chart.

Put the tire back on.
