

**AIR FILTER OIL**

**Adhesive oil for foam air filters**  
**Cross, Enduro, Trial, Trail motorcycle, Quads...**  
**Suzuki RM series 1st fill oil**

**CONSEILS D'UTILISATIONS**

MOTUL Air Filter Oil is a specific lubricant designed for foam air filters on Off-Road bikes and ATV.  
Use MOTUL Air Filter Clean for a perfect cleaning of your air filter prior to each lubrication.

**PERFORMANCES****PERFORMANCES**

- Meets Suzuki requirements
- Used by Suzuki RM Series as first fill oil

Water resistant, efficiently retains dust, mud and sand for an extended engine life span.

Limited pressure loss on air intake, improves engine power output.

Anti clogging formula.

Prevents water penetrating the filter when crossing fords.

Rapid drying to prevent dripping.

Blue coloured for easy application.

**RECOMMANDATIONS**

Clean the filter.

Soak in a tray of MOTUL Air Filter Oil and allow penetrating thoroughly.

Take off the filter and press it without wringing to remove excess product.

Let stand 10 minutes before refitting the air filter.

To improve air filtration efficiency, it is better to grease the rim of the filter and the inside of the airbox with MOTUL Tech Grease 300.
