

MOTUL AIR INTAKE CLEAN DIESEL

Motul Performance Service additive
Air Intake system cleaner for Diesel engines

TYPE OF USE

Diesel engine air intake system cleaner specially designed to remove deposits and varnish throughout the entire engine air intake system.

Part of the Motul Performance Service products offer, MOTUL® Air Intake Clean Diesel must be used exclusively with the Motul Inject or Motul Inject 3in1 automated engine cleaning machine.

Cleans the entire intake air circuit: intake manifolds, flaps, plugs, butterflies, venturi, valves, valve stems, valve seats, combustion chambers.

Compatible with all types of Diesel engines.

PERFORMANCES

Very quickly dissolves all deposits, soot, residue, varnish or gum.

Maximum performance and efficiency thanks to the application of MOTUL® Air Intake Clean Diesel using the Motul Inject or Motul Inject 3in1 machine.

MOTUL® Air Intake Clean Diesel stabilizes idling and restores original engine performance.

Improves engine response.

Reduces fuel consumption and pollutants emissions.

RECOMMENDATIONS

For use only and exclusively with Motul Inject or Motul Inject 3in1 automated engine cleaning machines.

Install the correct adapters in the air inlets according to the machine procedure.

With the engine on, spray the product into the engine air circuit using the machine following the operating procedure.
