

MOTUL AIR INTAKE CLEAN DIESEL

READY TO USE FLUID

DESCRIPTION

Diesel engine air intake system cleaner specially designed to remove deposits and varnish throughout the entire engine air intake system.

Part of the Motul Performance Service products offer, MOTUL® Air Intake Clean Diesel must be used exclusively with the Motul Inject or Motul Inject 3in1 automated engine cleaning machine.

Cleans the entire intake air circuit: intake manifolds, flaps, plugs, butterflies, venturi, valves, valve stems, valve seats, combustion chambers.

Compatible with all types of Diesel engines.

APPLICATIONS

Very quickly dissolves all deposits, soot, residue, varnish or gum.

Maximum performance and efficiency thanks to the application of MOTUL® Air Intake Clean Diesel using the Motul Inject or Motul Inject 3in1 machine.

MOTUL® Air Intake Clean Diesel stabilizes idling and restores original engine performance.

Improves engine response.

Reduces fuel consumption and pollutants emissions.

SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.

Important Notice

All information and rules about health, safety and the environment are mentioned on the safety data sheet. It provides information about risks, safety procedures and first aid emergency rules. It clarifies all procedures to implement in the case of an accidental spillage, and for the disposal of the product and its effects on the environment. The safety data sheet is available on www.motul.com.

Our product contains natural additives which are likely to modify the colour of the concentrates without altering its performance. The specifications of our products are definite only at the time of order, and are subject to our general sale and guarantee conditions. To give our customers the latest technical developments, the general characteristics of our products may vary.
