

MOTUL BIKE WASH PLUS

High-performance bike cleaner and degreaser.
Cleans and degreases: Removes mud, grease and brake residue without leaving marks

TYPE OF USE

MOTUL BIKE WASH Plus is the ultimate weapon against mud, dust, and grease after a hard-charging session. Its active foaming formula was forged for the trail: it clings to surfaces to disintegrate mud, brake dust, grease, and even tire sealant, even in the tightest spots of your frame. Whether you're ripping carbon, alloy, or steel, it deep-cleans without leaving streaks, while depositing an invisible anti-corrosion film to protect your rig until the next ride.

PERFORMANCES

Rinse the bike with fresh water. Spray **MOTUL BIKE WASH Plus** over the entire bike. Let it sit for 2 to 3 minutes (do not allow to dry). Scrub with the MOTUL Soft Bristle Brush or the MOTUL Washing Glove for an even deeper clean, then rinse thoroughly with fresh water.

Cleans and degreases: Removes mud, grease and brake residue — without leaving any marks.

RECOMMENDATIONS

Rinse the bike under running water. Spray **MOTUL BIKE WASH Plus** all over the bike. Leave it to work for 2 to 3 minutes (do not let it dry). Scrub with the MOTUL soft-bristle brush or MOTUL washing glove for an even deeper clean, then rinse thoroughly under running water.
