

**BIOCLEAN LIQUID**

WATER-BASED DEGREASER

**DESCRIPTION**

Universal ready-to-use biodegradable parts washer cleaner and degreaser for all types of mechanical components, machine parts, tools, etc.

We recommend using it with BIOCLEAN PARTS WASHER equipment, which is specially designed for it.

Unlike degreasing solvents, MOTUL BIOCLEAN LIQUID is a non-flammable fluid which degrades oily or greasy soils by micro-organisms to guarantee a long service life without saturation and fluid replacement.

MOTUL BIOCLEAN LIQUID is NSF C1 registered under No. 165861.

**APPLICATIONS**

With MOTUL BIOCLEAN LIQUID you can extend the operating time of your machine through microorganisms, with regular maintenance. Your work will be fast, effective and safe – no matter if manual or mechanical.

- Cleans aluminium, zinc-coated surfaces and non-ferrous metals as well as steel/stainless steel and plastics (such as PE).
- Solves medium to heavy cleaning and degreasing tasks (41 to 50 °C / 106 to 122 °F).
- Strong and versatile for virtually all materials, for medium to heavy soiling.
- Versatile in use in parts washers, parts washing machines and high-pressure parts washers.
- Environmentally friendly and safe, non-labelled, VOC-free.
- Compatible with oil separators.
- Easy disposal with other aqueous oil-water mixtures.

MOTUL BIOCLEAN LIQUID has been specially designed for closed-loop systems.

**TECHNICAL INFORMATION**

TECHNICAL CHARACTERISTICS	UNITS	METHOD	BIOCLEAN LIQUID
Color	-		Transparent
Density	-	ISO 12185	1
pH	-	NFT 60 187	8.0

These characteristics are given only for information and can be updated over time.

## HEALTH AND SAFETY

- Free from Volatile Organic Compounds
- Unlabelled according to CLP regulation
- Good dermatological behavior for better user comfort
- Frost-free storage in a dry place, between 2°C and 35°C
- Refer to the MSDS sheet and the information mentioned on the packaging.

## INSTRUCTIONS

### Storage Conditions :

To ensure any deterioration of the product, always store the product between 5°C and 40°C. Keep away from direct sunlight and store in a covered, cool and dry area.

## SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.

Information disclosed in this technical data sheet is based on MOTUL's experience and know-how in the development and manufacture of lubricants and other chemical products according to the current state of knowledge.

Any chemical product must be used in the intended application and in accordance with the recommendations provided in its safety data sheet freely consultable via the site <https://www.quickfds.com/fr/>. The performance of our products may be influenced by a series of factors, including conditions of use, application methods, operational environment, pretreatment of components, possible external contamination, etc ... For these reasons, universal recommendation of our products is impossible. The information in the technical data sheet represents general, non-binding guidelines and is given for guidance only. No express or implied warranty is given regarding the properties of the product or its suitability for a given application.

Therefore, we recommend consulting an application engineer to discuss application conditions and product performance criteria before use. It is the user's responsibility to test the functional suitability of the product and to use it under appropriate safety conditions. Our products are subject to continuous improvement with the aim of improving performance or bringing them into compliance with any new and possible regulations concerning them. We reserve the right to change our product lines, our products and their manufacturing processes and any provisions of our publications at any time without notice. This technical sheet cancels and replaces all previous editions.

We expressly draw the attention of any user to the fact that our product has not been designed and tested for use in the field of aeronautics as an "onboard" product or in the field of nuclear power production. Any use that may be made of the product in one of the aforementioned sectors will be under the exclusive responsibility of the user. Any reproduction, whatever its form, requires the prior written consent of MOTUL. All rights reserved.
