Bottle with trigger spray - 300 ml

TYPE OF USE

MOTUL Brake Clean - Powerful Brake Cleaner / Degreaser for Road Bikes

Discover MOTUL Brake Clean, a degreaser cleaner specially designed for bicycle brakes. This powerful and quick-drying product is formulated without solvents, using only readily biodegradable ingredients, for maximum efficiency while respecting the environment.

PERFORMANCES

Features:

Effective and Powerful: Effectively removes dirt, grease, oil and tar from brake discs and pad residue.

Restores Braking Performance: By cleaning deeply, it restores optimal braking performance and eliminates unpleasant squeaking.

Fast Drying: Evaporates quickly without leaving any traces, ensuring effective and residue-free cleaning.

Environmentally Friendly: Eco-responsible product with readily biodegradable ingredients, no volatile organic compounds (VOC) and non-corrosive to hands in case of contact.

Sustainable Bottle: Packaged in a 100% recycled and recyclable plastic bottle. Official Product: Official product of the Tour de France, approved by the pros.

RECOMMENDATIONS

Directions for Use for MOTUL Brake Clean

MOTUL BRAKE CLEAN TOUR DE FRANCE

Trust MOTUL Brake Clean to keep your road bicycle brakes sharp.

Trust MOTUL Brake Clean to keep your road bicycle brakes sharp.

Bottle with trigger spray - 300 ml

Shake the bottle before use.

Spray MOTUL Brake Clean on the brakes, brake discs, and areas to be cleaned.

Leave to act for a few moments to dissolve dirt and grease.

Wipe with a clean, dry cloth. Repeat if necessary for very dirty areas.

Safety:

Consult the Material Safety Data Sheet (MSDS) and the information on the bottle before use.
