

MOTULTECH CADREX V 877

Vanishing Neat oil

DESCRIPTION

CADREX V 877 is a chlorine-and sulfur free vanishing fluid, which is specifically designed for the forming and cutting of thin sheets of ferrous and non-ferrous metals.

APPLICATIONS

CADREX V 877 is an evaporative product which is best suited for the forming and cutting of thin sheets of ferrous and non-ferrous metals. Its technology provides a good lubrication and excellent anti-wear performance.

CADREX V 877 is designed to leave almost no residue which leads to cost savings on the degreasing stage.

ADVANTAGES

- Particular additives make the product well-adapted to the forming and cutting of thin sheets.
- Multi-purpose and versatile due to its fluidity .
- Removal of degreasing step after metal-working.
- Ready to use
- Contains an extreme-pressure, chlorine-free additive
- Compatible with non-ferrous metals
- Versatile
