

CAR BODY MICROFIBER CC

Microfibre without hem for car bodies
Face long hairs (cleaning) and short hairs (buffing)
Reusable and machine washable

TYPE OF USE

MOTUL® Car Body Microfibre is knit hemless, with soft fibers. Essential for optimal polishing without the risk of micro-scratches and perfect wiping of stubborn residue without scratches.

PERFORMANCES

Thanks to its soft fibers and knitting without hems, MOTUL® Car Body Microfibre is non-aggressive for bodywork and does not attack paints and varnishes.

Perfect wiping of stubborn residue without scratches. Its long-haired face allows optimal cleaning while short-haired face allows perfect polishing.

RECOMMENDATIONS

On a clean surface, clean first with the long-haired face, then polish with the short-haired side.

Shake the microfibre frequently during use to remove any residues and contaminations.

Machine washable up to 90°C.

For increased service life and many uses, prefer a low temperature wash.

Refer to the MSDS sheet and the information mentioned on the microfibre.
