MOTUL® Car Body Shampoo is a powerful cleaner and degreaser for the entire car which washes and degreases the bodywork. It removes the "road film", the greasy dust and deposits a film which facilitates the runoff of the water and accelerates the drying process.
Suitable for all surfaces: Plastics, paints, varnishes, metals, synthetic fibers, ...

MOTUL® Car Body Shampoo formula is based on Montan wax which heals damaged varnishes and leaves a a bright, deep and durable shine.
Effectively removes all traces of grease, dust, soil, mosquitoes, brake pad residues, ...
Dries without leaving traces.
Leaves a dry anti-corrosion protective film which allows the water to bead off and accelerates the drying process.
Protects paints and varnishes.

Add 30 ml of MOTUL® Car Body Shampoo in a bucket with 5L of clean water or apply some product directly on MOTUL® Jumbo Sponge or MOTUL® Cotton Chenille Wash Mitt.
Pre-rinse the vehicle.
Wash and lather the surface with the sponge or glove. For optimal efficiency, rinse with a high-pressure water jet and dry the bodywork using a microfiber suitable for obtaining a perfect finish.
Finally, rinse with water, and dry the surface with a microfiber towel.
DO NOT USE under direct sunlight or on hot surfaces.
