

**Anti-crystallization treatment for AdBlue®
Additive for AdBlue® tank fitted in SCR systems**

TYPE OF USE

MOTUL Crystal Protect AdBlue® is an innovative additive that helps maintain the AdBlue® injection system in perfect working order on Diesel engines equipped with SCR (Selective Catalytic Reduction) aftertreatment systems that treat NOx using AdBlue® additive, also known as "Diesel Exhaust Fluid."

Its unique formula prevents urea crystallization, ensuring optimal atomization of the AdBlue® injector, efficient operation of the SCR catalyst against NOx (nitrogen oxide) emissions, and prevents engine malfunctions due to crystal buildup.

MOTUL Crystal Protect AdBlue® is particularly recommended for extending the lifespan of the SCR (Selective Catalytic Reduction) system used in modern diesel vehicles and helping to avoid potential downtime and costly repairs.

PERFORMANCES

A well-maintained SCR system is essential for proper engine operation. By ensuring the perfect interaction between SCR and AdBlue®, MOTUL Crystal Protect AdBlue® allows:

- Maintaining the fluidity of AdBlue® by preventing the crystallization of urea residue
- Optimal SCR efficiency by preventing the formation of crystals throughout the AdBlue® circuit (tank, pump, dosing system, and AdBlue® injector)
- Maintaining the cleanliness of the SCR
- Increased reliability

Regular use of MOTUL Crystal Protect AdBlue® will ensure:

- Protection of the SCR system
- Maintenance of engine and exhaust gas aftertreatment system performance
- Improved driving pleasure
- Reduction of pollutant emissions
- Reduced maintenance costs and downtime

RECOMMENDATIONS

- By squeezing the bottle, measure and pour the desired amount of product into the dosing area at the top of the bottle (see the scale on the dosing head).
- Pour the dose of MOTUL Crystal Protect AdBlue® directly into the vehicle's AdBlue® tank, following the manufacturer's instructions for filling AdBlue®.

Always follow the manufacturer's instructions and the AdBlue® filling procedure as described in the vehicle's maintenance manual.

Regular use of MOTUL Crystal Protect AdBlue® with each AdBlue® tank fill ensures proper operation of the SCR and avoids costly repairs, thereby extending the lifespan of the exhaust gas aftertreatment system.

Dangerous. Observe the precautions for use.

SECURITY

Refer to the MSDS sheet and the information mentioned on the product label.
