

MOTUL ENGINE CLEAN + PRO

Engine cleaner before drain
Additive to add to engine oil before oil drain
For Gasoline and Diesel car engine

USO

MOTUL ENGINE CLEAN está diseñado para utilizarse en todo tipo de motores diésel y de gasolina, con aspiración natural o turbocompresor, con o sin convertidor catalítico y con cualquier tipo de combustible.

MOTUL ENGINE CLEAN limpia de forma eficaz las acumulaciones y las obstrucciones que se forman en el motor. Las micropartículas eliminadas se expulsan después en el momento de cambiar el aceite. MOTUL ENGINE CLEAN garantiza una lubricación perfecta durante el proceso de limpieza.

PRESTACIONES

MOTUL ENGINE CLEAN +, when added to engine oil before draining, allows to:

- reduce the wear
- decrease oil and fuel consumption
- increase compressions on all cylinders in the same way
- decrease exhaust pollutants emissions
- evacuate deposits, varnishes and other combustion residues from sensitive areas such as hydraulics lifters or piston grooves and rings
- take maximum benefit of fresh oil which will fill engine after draining
- increase catalytic converter's and DPF's lifetime

RECOMENDACIONES

Before each oil drain, add in the engine a can of ENGINE CLEAN + to hot used oil. Let the engine run at idle for 15 minutes. Drain the oil and change the oil filter.

One dose of 300 ml is sufficient to treat an engine oil capacity up to 5 litres. For higher capacities, 60 ml of ENGINE CLEAN + is to be added per additional litre of engine oil (over 5 litres). Do not exceed the recommended proportion. If necessary, proceed to 2 successive treatments.

Combined with DIESEL SYSTEM CLEAN or FUEL SYSTEM CLEAN, ENGINE CLEAN provides a very appreciable reduction of pollutants emissions to pass Vehicle Inspection.
