

MOTUL ENGINE FLUSH

READY TO USE FLUID

DESCRIPTION

MOTUL ENGINE FLUSH is designed to be used in all types of Gasoline and Diesel engines, naturally aspirated or turbocharged, with or without after treatment systems, using all kind of fuels. MOTUL ENGINE FLUSH effectively cleans deposits and clogging which appear in the engine. The removed micro-particles are then evacuated at the time of the oil drain. MOTUL ENGINE FLUSH provides a perfect lubrication during cleaning process.

APPLICATIONS

MOTUL ENGINE FLUSH, added to engine oil before draining, allows to:

- reduce the wear
- decrease oil and fuel consumption
- increase compressions on all cylinders in the same way
- decrease exhaust pollutants emissions
- evacuate deposits, varnishes and other combustion residues from sensitive areas such as hydraulics lifters or piston grooves and rings
- take maximum benefit of fresh oil which will fill engine after draining
- increase catalytic converter's, GPF's and DPF's lifetime

SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.

Important Notice

All information and rules about health, safety and the environment are mentioned on the safety data sheet. It provides information about risks, safety procedures and first aid emergency rules. It clarifies all procedures to implement in the case of an accidental spillage, and for the disposal of the product and its effects on the environment. The safety data sheet is available on www.motul.com.

Our product contains natural additives which are likely to modify the colour of the concentrates without altering its performance. The specifications of our products are definite only at the time of order, and are subject to our general sale and guarantee conditions. To give our customers the latest technical developments, the general characteristics of our products may vary.
