

FSC MOTO P

Fuel system cleaner
Additive to add to gasoline
For motorcycle engine with carburetors or injection

CONSEILS D'UTILISATIONS

MOTUL FUEL SYSTEM CLEAN s'utilise dans tous types de moteurs à Essence, à injection ou carburateur, turbo ou atmosphérique, avec ou sans pot catalytique, utilisant du carburant sans plomb ou autre. MOTUL FUEL SYSTEM CLEAN permet de nettoyer efficacement les salissures et encrassements inhérents au fonctionnement dans les systèmes d'alimentation du moteur en carburant :

- condensation dans l'ensemble du système d'alimentation
- gommages se produisant dans le carburateur
- encrassement des injecteurs
- encrassement des chambres de combustion et des soupapes d'admission

MOTUL FUEL SYSTEM CLEAN assure une parfaite lubrification durant la phase de nettoyage et empêche le dépôt des micros particules décollées.

PERFORMANCES

A clean fuel system is a necessary condition for an effective engine running. MOTUL FUEL SYSTEM CLEAN allows to:

- clean the carburetors or the injectors (for a better atomisation)
- prevent the formation of deposits and varnishes on inlet valves and in combustion chambers
- disperse condensation water in order to avoid any fuel system oxidation

A regular use will provide:

- optimum engine performances
- buck-free running (better rev raisings)
- fuel savings
- increased lifetime of fuel system and catalytic converter
- reduction of exhaust pollutants emissions

RECOMMANDATIONS

Directly pour one can of FUEL SYSTEM CLEAN in the tank before refuelling, regularly, depending on the use (shorten intervals in urban use). The fuel system will be then completely cleaned, from the tank to the combustion chamber. Do not exceed the recommended proportion. If necessary, proceed to 2 successive treatments.

Curative treatment: use the product pure by plugging on the fuel system with the adaptation kit.

SECURITY

Refer to the MSDS sheet and the information mentioned on the product label.
