

MOTUL INJECTOR CLEANER DIESEL

READY TO USE FLUID

DESCRIPTION

MOTUL INJECTOR CLEANER DIESEL is a curative additive designed to be used in all types of Diesel injection systems, with direct or indirect injection, naturally aspirated or turbo-charged, with or without DPF (Diesel Particulate Filter) and with or without SCR (Selective Catalytic Reduction) systems.

INJECTOR CLEANER DIESEL is a Diesel additive compatible with Biodiesel fuels such as B7 (7% Biodiesel) and B10 (10% Biodiesel).

MOTUL INJECTOR CLEANER DIESEL effectively cleans dirtying and clogging which appear in the whole Diesel fuel injection system:

- injector nozzle fouling
- condensation in the fuel system
- gumming in the injection pump
- dirtying of combustion chambers and inlet valves

MOTUL INJECTOR CLEANER DIESEL provides a perfect lubrication during cleaning phase and prevents removed micro-particles from depositing. Moreover, it prevents from Diesel fuel oxidation and micro-organisms formation.

APPLICATIONS

A clean fuel system is a necessary condition for an effective engine functioning.

MOTUL DIESEL SYSTEM CLEAN allows to:

- Restore engine power and performance
- Reduce fuel consumption and pollutant emissions at the exhaust (smoke, fumes...). To be recommended before the technical inspection.
- Improve cold starts and drivability comfort
- Increase lifetime of fuel systems and after treatment systems

SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.

Important Notice

All information and rules about health, safety and the environment are mentioned on the safety data sheet. It provides information about risks, safety procedures and first aid emergency rules. It clarifies all procedures to implement in the case of an accidental spillage, and for the disposal of the product and its effects on the environment. The safety data sheet is available on www.motul.com.

Our product contains natural additives which are likely to modify the colour of the concentrates without altering its performance. The specifications of our products are definite only at the time of order, and are subject to our general sale and guarantee conditions. To give our customers the latest technical developments, the general characteristics of our products may vary.
