

IRIX EVO CSX 290-2

Greases

USO

IRIX EVO CSX 290-2 is a calcium sulphonate complex thickened lubricating grease based on mineral oil. This grease contains antioxidants and corrosion inhibitors. It does not contain conventional EP- and AW-additives since they are built in as an integral part of the soap structure.

PRESTACIONES

IRIX EVO CSX 290-2 is a high-performance product suitable for both industrial, marine and "off road" applications. The extreme load carrying capacity and the excellent water resistance make it a perfect choice for heavily loaded applications in hot or wet and corrosive environments.
