

Graisses**USO**

IRIX EVO CSX 440-2 is calcium sulphonate complex thickened lubricating grease based on mineral oil. This grease contains antioxidants and corrosion inhibitors. It does not contain conventional EP- and AW-additives since it is built in as an integral part of the soap structure.

PRESTACIONES

IRIX EVO CSX 440-2 is a high-performance product suitable for both industrial, marine and "off road" applications. The extreme load carrying capacity and the excellent water resistance make it a perfect choice for heavily loaded applications in hot or wet and corrosive environments.

Classification:

- ISO 12924: L-XB(F)DIB2
- DIN 51502: KP2N-20

PROPIEDADES

Color	Visual	Marrón
Punto de gota	IP 396	> 280 °C
Viscosidad del aceite base a 40 °C	ASTM D7152	450.0 cSt
Grado NLGI	ASTM D217	2
Espesante		Sulfonado de calcio complejo
60 golpes de penetración	ISO 2137	265 - 295 à 25°C
Lavado por agua	ISO 11009	< 10 % at 38°C
