

MOTUL BRAKE CLEAN REFILL

Very powerful non-chlorinated degreaser for brakes and mechanical systems

TYPE OF USE

MOTUL BRAKE CLEAN REFILL is a water based, surfactant-free, fast-drying cleaner. It is the ideal tool for removing all oil and grease-containing dirt, e.g. from brakes (drum and disc brakes, linings, brake pads, cylinders, springs and bushings), clutches (clutch friction discs and clutch parts) and all other mechanical parts that need to be grease-free for further use.

PERFORMANCES

Dissolves oil, grease and tar. Leaves no marks.
Spray - wipe - clean.

RECOMMENDATIONS

Spray from a short distance on the areas to be cleaned. If necessary, allow to act briefly and then wipe off with a clean cloth.

Respray on very dirty areas.

SECURITY

Please refer to the MSDS sheet.
