

**PARTS CLEAN MODERATE DRY**

**Multi-purpose non-chlorinated degreaser for brake and other metal parts**  
**Aerosol**

**TYPE OF USE**

MOTUL PARTS CLEAN Moderate Dry is a powerful non-chlorinated degreasing agent to dissolve brake dust, oils, greases and asphalt.

Suitable for a wide variety of applications due to an elastomer and plastic friendly formula.

Very quick drying for easy use in workshop environment.

Brakes and clutches:

Brake and clutch pad residues.

All mechanical parts and systems:

Engine disassembling, levers, axles of brakes, clutch material and shock absorbers, chain stops and adjusters, followers, oil, grease, tar residues,...

Non-metal parts:

Paint panels, elastomers, seals and plastics. Because MOTUL PARTS CLEAN Moderate Dry is designed to degrease on metal parts, it is advised to check with spraying on a hidden small area of plastics, paint panels, and varnishes prior to use.

**PERFORMANCES**

- Removes brake pad residue with powerful spraying.
- Dissolves oil, grease, tar and brake fluid.
- Evaporates very quickly leaving no marks (approximately 10 seconds to dry).
- Specific nozzle helps to reach hard access areas and allows wide or pin-point spray.

**RECOMMENDATIONS**

Shake before use.

Spray from a distance of 10 to 15 cm.

Allow approximately 10 seconds to dry.

Remove heavy deposits with soft towel or soft brush.
