

## RUBRIC R-CLEAN

### HYDRAULIC SYSTEMS

#### DESCRIPTION

**RUBRIC R-CLEAN** is a specially formulated cleaning solution, designed for use in mineral based hydraulic oils. The addition of **RUBRIC R-CLEAN** at a level between 5% and 20% volume to an in-service hydraulic fluid will help remove varnish and sludge from the hydraulic system in preparation for the introduction of a new fluid.

For lightly varnished systems, a lower concentration of cleaner is sufficient and for heavily varnished systems, a higher concentration may be necessary.

**RUBRIC R-CLEAN** is the first part of a Hydraulic Clean Package that consists of the cleaner **RUBRIC R-CLEAN** and **RUBRIC CLEAN HM** hydraulic oils.

#### APPLICATIONS

**RUBRIC R-CLEAN** can be used at concentrations between 5% and 20% volume in the used mineral based hydraulic oils. The exact cleaner concentration should be determined by evaluating the extent and severity of the varnish and sludge accumulation in the system as well as the age and integrity of the system.

The cleaner can be added directly to a hydraulic system fluid which is already in service and the system can be operated for short periods of time during the cleaning process.

Once the cleaning process is complete, the system should be thoroughly drained, flushed and recharged with our **RUBRIC CLEAN** hydraulic oil.

**RUBRIC R-CLEAN** should not be left in the system for continued operation beyond the cleaning process.

#### ADVANTAGES

- Helps remove varnish build-up and sludge.
- Significantly reduces equipment downtime when compared to manual cleaning.
- Helps eliminate valve sticking due to varnishes.
- Compatible with mineral based lubricants.
- Helps reduce health and safety concerns in comparison to solvent based cleaners.
- Compatible with common seal materials.

#### SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.

### Important Notice

Information disclosed in this technical data sheet is based on MOTUL's experience and know-how in the development and manufacture of lubricants and other chemical products according to the current state of knowledge.

Any chemical product must be used in the intended application and in accordance with the recommendations provided in its safety data sheet freely consultable via the site <https://www.quickfds.com/fr/>. The performance of our products may be influenced by a series of factors, including conditions of use, application methods, operational environment, pretreatment of components, possible external contamination, etc ... For these reasons, universal recommendation of our products is impossible. The information in the technical data sheet represents general, non-binding guidelines and is given for guidance only. No express or implied warranty is given regarding the properties of the product or its suitability for a given application.

Therefore, we recommend consulting an application engineer to discuss application conditions and product performance criteria before use. It is the user's responsibility to test the functional suitability of the product and to use it under appropriate safety conditions. Our products are subject to continuous improvement with the aim of improving performance or bringing them into compliance with any new and possible regulations concerning them. We reserve the right to change our product lines, our products and their manufacturing processes and any provisions of our publications at any time without notice. This technical sheet cancels and replaces all previous editions.

We expressly draw the attention of any user to the fact that our product has not been designed and tested for use in the field of aeronautics as an "onboard" product or in the field of nuclear power production. Any use that may be made of the product in one of the aforementioned sectors will be under the exclusive responsibility of the user. Any reproduction, whatever its form, requires the prior written consent of MOTUL. All rights reserved.
