

SAE 40

TYPE OF USE

Mineral monograde lubricant especially formulated for Classic Gasoline or Diesel 4 stroke engines and transmissions built before 1950.

Specially designed for Ancestor, Veteran, Vintage, Prewar and Classic vehicles requiring a SAE 40 viscosity grade lubricant.

Modern version of classic monograde engine oil to perfectly suit requirement of climate conditions.

Easier start-ups for vehicles that are stored for long period of time.

Can also be used as break-in oil.
