

SAFCO SPRAY MULTILUBE

Multi-purpose Degreaser & Lubricant 10 in 1

DESCRIPTION

SAFCO SPRAY MULTILUBE is a versatile, high-performance aerosol formulated with natural plant-based esters. As a powerful penetrating fluid, it protects against corrosion and lubricates mechanisms, while also removing tar, deposits, oxides, and grease effectively. Its unique formulation additionally dissolves inks, prevents adhesion, and restores shine to elastomers, ensuring safe and complete maintenance on all surfaces.

Packaging: Pack of 6 aerosols – 400 ml each.

APPLICATIONS

- · Bolts, ball joints, and studs
- Machine tool slides cleaning and maintenance
- · Pivots, shafts, and cables in sheaths
- · Electromechanical contacts
- · Hinges, guides, columns, and slides
- · Telescopic antennas
- · Chains degreasing and maintenance
- · Cement plants
- General, mechanical, and agricultural industries
- · Transportation equipment

ADVANTAGES

- One product, 10 functions
- High material compatibility
- Fast-acting and long-lasting
- Effective while being environmentally and user-friendly
- Versatile: mechanical, industrial, and transport applications

TECHNICAL INFORMATION

TECHNICAL CHARACTERISTICS	UNITS	METHOD	SAFCO SPRAY MULTI- LUBE
Color	-	Visual	Amber
Density	-	ISO 12185	0.82
Viscosity at 40°C	mm²/s	NF EN ISO 3104	3.6
Flash point	°C	ISO 2719	104
Self-Ignition Point	°C	ASTM E 659	200.0
Breakdown Voltage	kV	IEC 156	63
KB Value	-	ASTM D1133	95.0
Biodegradability	%	OCDE 301 A/C	> 80

These characteristics are given only for information and can be updated over time.

HEALTH AND SAFETY

- Free from VOCs, silicone, orthophosphoric acid, and chlorinated solvents
- Easily and rapidly biodegradable according to OECD criteria
- Uses an inert propellant gas: CO₂

PROPERTIES:

- Clean and colorless formula, free from VOCs, silicone, and chlorinated solvents
- Removes gum deposits and all types of hydrocarbons (light or heavy)
- · Light-stable, with no photochemical reactivity
- · Very low surface tension for optimal penetration
- · Compatible with all plastics and elastomers, does not attack paints

INSTRUCTIONS

Storage Conditions:

To ensure any deterioration of the product, always store the product between 5°C and 40°C. Keep away from direct sunlight and store in a covered, cool and dry area.

SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.

Information disclosed in this technical data sheet is based on MOTUL's experience and know-how in the development and manufacture of lubricants and other chemical products according to the current state of knowledge.

Any chemical product must be used in the intended application and in accordance with the recommendations provided in its safety data sheet freely consultable via the site https://www.quickfds.com/fr/. The performance of our products may be influenced by a series of factors, including conditions of use, application methods, operational environment, pretreatment of components, possible external contamination, etc ... For these reasons, universal recommendation of our products is impossible. The information in the technical data sheet represents general, non-binding guidelines and is given for guidance only. No express or implied warranty is given regarding the properties of the product or its suitability for a given application.

Therefore, we recommend consulting an application engineer to discuss application conditions and product performance criteria before use. It is the user's responsibility to test the functional suitability of the product and to use it under appropriate safety conditions. Our products are subject to continuous improvement with the aim of improving performance or bringing them into compliance with any new and possible regulations concerning them. We reserve the right to change our product lines, our products and their manufacturing processes and any provisions of our publications at any time without notice. This technical sheet cancels and replaces all previous editions.

We expressly draw the attention of any user to the fact that our product has not been designed and tested for use in the field of aeronautics as an "onboard" product or in the field of nuclear power production. Any use that may be made of the product in one of the aforementioned sectors will be under the exclusive responsibility of the user. Any reproduction, whatever its form, requires the prior written consent of MOTUL. All rights reserved.
