

MOTULTECH SAFKLEEN 334 F

Degreasing Agent

AQUEOUS FLUID

DESCRIPTION

SAFKLEEN 334 F is a water-based cleaner that can be used for the degreasing and the temporary passivation of ferrous metals and yellow alloys.

APPLICATIONS

SAFKLEEN 334 F is used in single-stage and multi-stage washing machines, to remove and decontaminate metal surfaces from oils and particles during processing and to provide temporary protection against oxidation.

SAFKLEEN 334 F is used hot (minimum 50°C to avoid foaming), at a concentration of 1-8%.

A de-oiling system is recommended as the product tends to separate the oil removed from the parts towards the surface of the bath. It is ideal for the interoperation cleaning of semi-finished products or before final assembly.

SAFCO KLEEN 334 F is particularly suitable for the degreasing before and after heat treatment as it does not contain inorganic salinity.

ADVANTAGES

- Protection against oxidation
- Easy to rinse
- Fully organic
- Boron and phosphate free
- Very good bio-stability
- Biodegradable

TECHNICAL INFORMATION

TECHNICAL CHARACTERISTICS	UNITS	METHOD	SAFKLEEN 334 F
Aspect	-		Clear / Light Yellow
pH	-	NFT 60.193	8.0 at 4%
Break Point Corrosion	%	IP 287	>10
Refractometer Factor	-		3.6
Temperature range	-		50-70°C

These characteristics are given only for information and can be updated over time.

RECOMMENDED CONCENTRATIONS OF USE

- Dégraissant : 1-8%

HEALTH AND SAFETY

- Free from chlorinated additives and boron
- Phosphate free
- Good dermatological behavior for better user comfort
- Frost-free storage in a dry place

SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.

Important Notice

All information and rules about health, safety and the environment are mentioned on the safety data sheet. It provides information about risks, safety procedures and first aid emergency rules. It clarifies all procedures to implement in the case of an accidental spillage, and for the disposal of the product and its effects on the environment. The safety data sheet is available on www.motul.com.

Our product contains natural additives which are likely to modify the colour of the concentrates without altering its performance. The specifications of our products are definite only at the time of order, and are subject to our general sale and guarantee conditions. To give our customers the latest technical developments, the general characteristics of our products may vary.
