

STABILIS 9910 AL

BORON AND AMINE FREE EMULSION FOR ALUMINIUM MACHINING

MINERAL BASE

DESCRIPTION

STABILIS 9910 AL is a water soluble concentrate particularly suited to all machining processes on steels, aluminum and its alloys.

STABILIS 9910 AL is compliant with SAFRAN Pr-6300 specification for Titanium parts machining.

Thanks to its specific additives, **STABILIS 9910 AL** is particularly effective for all machining operations on ferrous and non-ferrous alloys on both soft and hard water.

APPLICATIONS

STABILIS 9910 AL is particularly suited to all machining processes on aluminum and its alloys.

ADVANTAGES

- Low foaming product.
- Very good cooling and detergency properties.
- Good lubrication properties.
- Excellent stability in use.
- Excellent bio stability
- Operator friendly
- Cleanliness of working environment

TECHNICAL INFORMATION

TECHNICAL CHARACTERISTICS	UNITS	METHOD	STABILIS 9910 AL
Aspect	-		Liquid
Density	-		959.0
pH	-	NFT 60.193	9.0 at 5 %
Break Point Corrosion	%	IP 287	4
Refractometer Factor	-		1.0
Water Hardness range	ppm		100-600

These characteristics are given only for information and can be updated over time.

RECOMMENDED CONCENTRATIONS OF USE

- General machining of aluminium: 6-8%
- Tapping / Threading: 8-12%
- Tapping / Threading: 8-12%
- General machining of steel: 5-7%
- Reaming / Sawing 8-15%

HEALTH AND SAFETY

- Formaldehydes & formaldehydes releasers free
- Boric acid, nitrites and DEA free, without chlorinated additives
- Operator friendly: good dermatological behavior and easy to use

INSTRUCTIONS

Before first fill, thoroughly clean the installation with an antiseptic such as **Contram CB3**. Drain and rinse the system with water. |

If no volumetric mixing system is available, slowly pour **STABILIS 9910 AL** into water while stirring continuously to achieve a correct preparation of the emulsion.

To ensure the best quality of emulsion and maximize the fluid efficiency, consult the **Good Practices Handbook - Metalworking Soluble Fluids**.

SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.

Important Notice

All information and rules about health, safety and the environment are mentioned on the safety data sheet. It provides information about risks, safety procedures and first aid emergency rules. It clarifies all procedures to implement in the case of an accidental spillage, and for the disposal of the product and its effects on the environment. The safety data sheet is available on www.motul.com.

Our product contains natural additives which are likely to modify the colour of the concentrates without altering its performance. The specifications of our products are definite only at the time of order, and are subject to our general sale and guarantee conditions. To give our customers the latest technical developments, the general characteristics of our products may vary.
