

SUPER OCTANE BOOSTER GASOLINE

**Gasoline octane index booster
Additive to add to gasoline fuel
For gasoline engine – injection or carburetor**

TYPE OF USE

MOTUL SUPER OCTANE BOOSTER GASOLINE is an octane index booster for Gasoline fuels to be used in all types of gasoline engines, either indirect or direct injection, carburetor, turbocharged or naturally aspirated, with or without catalytic converters, using all kind of gasoline fuels, leaded or unleaded, LPG, Ethanol and biofuels. MOTUL SUPER OCTANE BOOSTER GASOLINE increases significantly the octane number (RON – Research Octane Number) by up to +5 points. Mixed with fuel, it allows:

- Improved combustion and engine performance
- Prevents knocking phenomenon and abnormal combustions

PERFORMANCES

Efficient combustion is a prerequisite for optimum engine operation. By increasing the gasoline octane number, MOTUL SUPER OCTANE BOOSTER GASOLINE allows:

- Better combustion and better performance
- Faster start-ups and accelerations
- Preservation of the combustion chamber cleanliness
- Limitation of engine knocking and abnormal combustions

The use of MOTUL SUPER OCTANE BOOSTER GASOLINE will ensure:

- Improved engine performance and driving pleasure
- Improved combustion performance: start-up, idling and acceleration
- Reduction of fuel consumption and pollutant emissions

RECOMMENDATIONS

Pour one whole can of MOTUL SUPER OCTANE BOOSTER GASOLINE in the gasoline fuel tank before refueling. A can is sufficient for gasoline fuel tanks up to 50 liters.

Use MOTUL SUPER OCTANE BOOSTER GASOLINE regularly for optimal performance.
