

## SUZUKI SO 3000

100% SYNTHETIC BASE

### DESCRIPTION

**Fuel Economy Engine Oil** specially designed for last generation cars, powered by Gasoline and Diesel engines, naturally aspirated or turbocharged, indirect or direct injection, Euro 4, 5 or 6 emission regulation compliant, requiring an ACEA C2 engine oil, designed to use low friction and low HTHS ( $< 3.5$  mPa.s) viscosity oil and "Mid SAPS" with reduced content of Sulfated Ash ( $\leq 0.8\%$ ), Phosphorus ( $0.07 \leq x \leq 0.09\%$ ) and Sulfur ( $\leq 0.3\%$ ).

Suitable for any type of Diesel or gasoline engines calling for "Fuel Economy" lubricants : ACEA A1/B1 or A5/B5 standards.

These oils may be unsuitable for use in some engines. Refer to the owner manual or handbook if in doubt.

### APPLICATIONS

Engines compliant with Euro 4, 5 and 6 emission regulation are fitted with sensitive exhaust gas after treatment systems :

- Sulfur and Phosphorus inhibit catalytic converters operation and can damage catalytic components: inefficient exhaust gas treatment.

- Sulfated Ashes clog diesel particulate filters: shorten regenerating cycle, higher fuel consumption and engine power loss.

ACEA developed ACEA C2 standard for lubricants with low friction, low HTHS ( $< 3.5$  mPa.s), reduced Sulfated Ash, Phosphorus and Sulfur content (Mid SAPS), suitable for use with exhaust gas after treatment systems.

**ACEA C2 lubricants are environment friendly reducing fuel consumption, minimizing green house gases emission and also achieve extended drain intervals managed by vehicles computer on board.**

### SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and monitoring of your lubricants. Please contact your technical sales representative for more information.

#### Important Notice

All information and rules about health, safety and the environment are mentioned on the safety data sheet. It provides information about risks, safety procedures and first aid emergency rules. It clarifies all procedures to implement in the case of an accidental spillage, and for the disposal of the product and its effects on the environment. The safety data sheet is available on [www.motul.com](http://www.motul.com).

Our product contains natural additives which are likely to modify the colour of the concentrates without altering its performance. The specifications of our products are definite only at the time of order, and are subject to our general sale and guarantee conditions. To give our customers the latest technical developments, the general characteristics of our products may vary.
