

MOTUL TOUT EN UN ESSENCE

**Gasoline multi-action cleaner
Curative fuel additive to add to gasoline
Bottle 1 Liter**

TYPE OF USE

MOTUL® ALL IN ONE GASOLINE is a complete multi-action curative cleaner for all types of gasoline engines, with injection systems or carburetors, naturally aspirated or turbocharged, with or without catalytic converter or particulate filter, using all types of gasoline fuels, lead or unleaded, Ethanol, LPG and biofuels. MOTUL® ALL IN ONE GASOLINE is a gasoline additive compatible with E10 fuels (Ethanol 10%).

MOTUL® ALL IN ONE GASOLINE effectively cleans deposits and fouling inherent in the operation of the injectors and fuel delivery systems of the engine thanks to its curative multi-action properties thus limiting:

- injector nozzle fouling
- condensation in the fuel system
- gumming in the injector or carburetor
- dirtying of combustion chambers and inlet valves

MOTUL ALL IN ONE GASOLINE provides a perfect lubrication during cleaning process and prevents removed micro-particles from depositing.

By removing deposits and clogging from valves, injectors and combustion chambers, MOTUL® ALL IN ONE GASOLINE enables powerful combustion restoring engine performance, reducing fuel consumption, and thus reducing exhaust gas and particulate emissions.

MOTUL® ALL IN ONE GASOLINE multi-action additive also protects the complete fuel system against corrosion, making it ideal for fuels with Ethanol contents (E5 & E10).

PERFORMANCES

A clean fuel system is a necessary condition for optimal engine operation (good combustion). MOTUL® ALL IN ONE GASOLINE therefore makes it possible to:

- clean the carburetors or the injectors (for a better fuel atomization)
- prevent the formation of deposits and varnishes on inlet valves and in combustion chambers

We retain the right to modify the general characteristics of our products in order to offer to our customers the latest technical development.

Product specifications are definitive from the order which is subject to our general conditions of sale and warranty.

MOTUL TOUT EN UN ESSENCE

**Gasoline multi-action cleaner
Curative fuel additive to add to gasoline
Bottle 1 Liter**

- disperse condensation water in order to avoid any fuel system oxidation and corrosion

Using MOTUL® ALL IN ONE GASOLINE will ensure:

- Restoration of original engine power and performance
- Reduction of fuel consumption and pollutant emissions (highly recommended before the vehicle technical inspection)
- Easy cold start and better driving comfort
- Increased lifetime of fuel injection systems and exhaust after treatment systems

RECOMMENDATIONS

Pour the entire bottle of MOTUL® ALL IN ONE GASOLINE directly into the gas tank before refuelling. Drive normally until all the fuel has been used up, the fuel system will then be completely cleaned, from the tank to the injector and the combustion chamber.

One dose is sufficient for tanks up to 80 litres.

Do not exceed the prescribed dose. If necessary, do 2 successive treatments instead.

To preserve the benefits of cleaning, then use MOTUL® ALL IN ONE ESSENCE regularly.

For best results, use MOTUL® ENGINE FLUSH pre-drain additive before every oil change.

SECURITY

Refer to the MSDS – Material Safety Data Sheet and the information mentioned on the product label.

Dangerous. Respect the precautions for use.
