

MOTUL TYRE RESTORER

Restorer in gel for all type of tyres
Gel in spray

TYPE OF USE

MOTUL® Tyre Restorer is a tyre restorer in gel for all type of tyres. Based on a 99% natural origin formula it restores faded tyres with long lasting deep black color and natural like-new shine.

This restorer also refreshes the appearance of dull vinyl and rubber moldings and trim to renew the vibrancy of their original color.

Frequent application of MOTUL® Tyre Restorer will protect your tyres' sidewalls from cracking, turning brown and against UV rays.

PERFORMANCES

MOTUL® Tyre Restorer is an outstanding tyre restorer in gel for all type of tyres.

Based on a 99% natural origin formula it restores faded tyres with long lasting deep black color and natural like-new shine, and it also refreshes the appearance of dull vinyl and rubber moldings and trim to renew the vibrancy of their original colors.

Frequent application of MOTUL® Tyre Restorer will protect your tyres' sidewalls from cracking, turning brown and against UV rays.

0% neutral scent.

Non-greasy formula.

Contents no solvents.

RECOMMENDATIONS

Shake MOTUL® Tyre Restorer before use.

Clean the tyre then spray MOTUL® Tyre Restorer on the clean and dry tyre.

Let the formula soak on the tyre for at least 1 hour then wipe over the surface with a microfiber to remove the surplus.

Renew the operation on difficult areas if necessary.

DO NOT USE under direct sunlight or on hot surfaces.
